

## *Corporate Team Challenge!*

*Now is your chance to show what you and your colleagues are made of!  
Create a corporate team and go head-to-head with “rival” area businesses  
in your industry.*

How to get started:

- Talk to your coworkers and generate interest in the race.
- Talk to others in your industry to create friendly competition.
- Designate a team captain. The team captain should create a corporate team on the registration website as well as the fundraising website (see below for links). Feel free to be creative with your team name!
- Make sure everyone registers under the team name.
- Set a team fundraising goal. Some ideas for fundraising:
  - Coordinate a “Dress Down Day” at work.
  - Develop an interoffice competition.
  - Host a fundraising event (raffle, silent auction, restaurant promotion).
  - Include your fundraising link in your email signature and social media pages.

***We will award prizes for most team participants and most money raised for each industry.***
