

October 30, 2020

Hi Everyone,

As the COVID-19 pandemic continues and the number of cases in the State of Ohio rapidly rise, cold and flu season is also upon us. As you know, we assess and monitor all clients, employees and partners for risks, symptoms and exposure. You all have done a great job keeping your supervisors and nursing informed of any illness, exposure or concerns. I appreciate this very much. (Brittany can be reached at 216.299.6995)

Please remember that you are required to notify your supervisor of all travel or travel plans. The State of Ohio issues a weekly list of states with an incidence rate of higher than 15% COVID-19 cases where quarantine is recommended upon return. You are asked about your travel to those states in the assessment you fill out prior to working. If you travel to any of these states, out of the country or anywhere via mass transit (plane or long distance bus/train rides), you may be asked to quarantine and/or be tested for COVID-19. Nursing will contact you to discuss these steps.

The holiday season is approaching, and we hope that you remain safe as you consider your plans. It is known that gatherings of any size with people outside of your household have a high potential for COVID-19 spread. We urge you to consider this in your everyday lives and during the holidays. Your health and that of those we serve remains of greatest importance to us.

These are challenging times for everyone and the restrictions and suggestions that are put in place are done so with your best interest in mind. I also recognize the toll that all of this can take on you and your family. If there is anything we can do to support you, please be in contact with your supervisor, me or any member of the leadership team.

Have a great weekend!

Beth
