

Today is **International Women's Day!** We offer special recognition to the women of UCP -- staff, clients, and families.

The first gathering of International Women's Day occurred in 1911, 110 years ago! Since then, year over year, we celebrate the social, economic, cultural, and political contributions of women; raise awareness of women's equality; lobby for advancement of gender parity; and highlight female-focused charities.

Did you know that over 85% of UCP of Greater Cleveland's staff are women? Our agency, the DD field, and the overall healthcare community owe heart-felt thanks for the compassion, dedication and talents of women of yesterday, today, and tomorrow. Of course, we are appreciative of the contributions of all (women and men) but, today, please take a moment to learn about [International Women's Day](#) and make it a point to thank the special women in your life!

Proud Woman of UCP of Greater Cleveland!
