

Good Morning All,

I hope you have had a good week and are looking forward to the weekend. Remember that Sunday is Mother's Day!

If you don't mind me sharing something personal, I was blessed to have a wonderful mother and grandmother in my life and I have experienced the joy of being a mother, stepmother and grandmother. Motherhood can bring exhaustion, excitement, sadness, happiness, stress, and every other extreme emotion and experience. For me, it has been the most challenging but most rewarding role of my life.

For those of you who are mothers, I wish you a very Happy Mother's Day. I hope all can spend time with your mothers, grandmothers, aunts, or other family or friends to celebrate their special day. Time spent together can be the greatest gift...especially this year.

Please continue to stay healthy and safe,
Trish
