

Good Morning All,

As we continue to make adjustments to the Agency's staffing structure, I write today with more good news! As the Alternative Education Program and other education-focused services continue to grow in LeafBridge Services, it is my pleasure to announce that Amanda Stohrer has been named Associate Director of LeafBridge Services and will oversee these areas of programming among other duties.

Amanda started with UCP in 2010 and was promoted to her current role of Occupational Therapy Manager in 2013. She holds a Master of Science in Occupational Therapy from Western Michigan University, is a licensed Occupational Therapist, RESNA-certified Assistive Technology Professional and Perkins Roman CVI Range© Endorsee. Throughout her tenure, our therapy services and educational programming have expanded, and her experience makes her well-suited to take on this role. Amanda will focus on management of LeafBridge's expanded school related services while at the same time taking a general leadership role in the program reporting to Intesar Taye, LeafBridge Director. Her combination of therapeutic knowledge, school district needs, business acumen, and passion for those we serve is a great asset to UCP and we are lucky to have her here.

Please join me in congratulating Amanda on her well-deserved promotion!

Make today a good day!

Trish
