

LEAFBRIDGE EDUCATION SERVICES

LeafBridge partners with local school districts to provide highly specialized education services for students with disabilities and complex needs.

For school districts — many of which are already experiencing insufficient funding and resources — meeting the unique and complex needs of thousands of students with disabilities across Northeast Ohio can be challenging. Limited availability of specialists, individualized curriculums, and accessibility are a few of the common barriers that schools face while attempting to provide an optimal growth environment for their students with disabilities.

Off-Site Services

We Come to You

Our team of thoroughly experienced occupational therapists, physical therapists, speech language pathologists, CVI specialists, assistive technology professionals, and intervention specialists offers:

- Related Services Contracts
- Assistive Technology Evaluations
- Development & Review of ETRs and IEPs
- Independent Educational Evaluations (IEEs)

On-Site Services

You Come to Us

For students with disabilities who require a distinctly personalized curriculum and services outside of the traditional school environment, LeafBridge offers an Alternative Education Program with half and full day options available. We also offer various summer programs, including Extended School Year and Summer Camp.

“ We have been partnering with UCP of Greater Cleveland for the purposes of (LeafBridge) Occupational and Physical Therapists to provide services for our East Cleveland students. The therapists are professional, personable and very knowledgeable. They have proven to be dedicated, creative and innovative in their delivery of services; often going above and beyond to ensure a safe, exciting environment for all. Throughout the years, they have built positive relationships with staff, students and families and are invested in the overall success of the District.”

— Courtney Bean Jones, Director of Pupil Personnel Services East Cleveland City Schools
